ABOUT ME

I'm a Level Designer & Balancer from Germany. Currently I am studying at the School for Games in Berlin. Besides focusing on level design & balancing, I have knowledge about feature design, production & programming. Because of my previous experiences within my semester projects at the School for Games.

I started playing all kinds of games since my early childhood. From this I noticed that I'm extremely interested in the process of how a game starts from idea to a finished product. Then over the years I started creating card games, then started playing DnD & after some time finally landed in my current apprenticeship.

EDUCATION

Oct. 2024 - Sep. 2026
S4G School for Games
Berlin

2019 - 2024
Marie-Curie-Gymnasium
Brandenburg

EXPERIENCE

2026 - 2026
Internship | Nachtalb UG | 18. Jun. 2026 - 21. Aug. 2026
I designed numerous cards & added them into the game engine for Walpurgis. I also initiated the balancing for the game

2025 - 2026
3. Semester Project | Skippebble | 01. Dec. 2025 - 20. Feb. 2026
I designed multiple level in Unreal 5 & programmed the UI for the game.

2025 - 2025
2. Semester Project | Barque of Ra | 10. Jun. 2025 - 15. Aug. 2025
I lead the design department as the Design Lead & balanced the entire game

2025 - 2025
1. Semester Project | Yokai Parade | 06. Jan. 2025 - 14. Mar. 2025
I took upon the Producer role & lead the team, whilst also being the Feature Designer.
